EDUCATION

USCO ~ Universidad Surcolombiana
Software Engineering

Neiva, Huila/CO
2021 - In progress

PROJECTS

UNIVERSITARIOS NEIVA, HUILA/COLOMBIA

- Cholesterol Palace
 - This project is a web application called "Cholesterol Palace" that uses React, Tailwind CSS and Vite to display information related to a delicious but unhealthy food store.
 - Live Demo: <https://palaciocolesterol.netlify.app>
- Fruit Detector
 - This project consists of the development of a web application using Flask, designed to perform iterations with a model in H5 format. The main purpose of this application is to carry out analysis of images that users upload, with the objective of determining the fruit present in the image and displaying the corresponding prediction.
- Portfolio
 - This project consists of the development of a web using React, designed to show me as a Web Developer with some other projects realized by me
